

HELPDESK DATA LITERACY

Research and access to existing ontologies/authority files

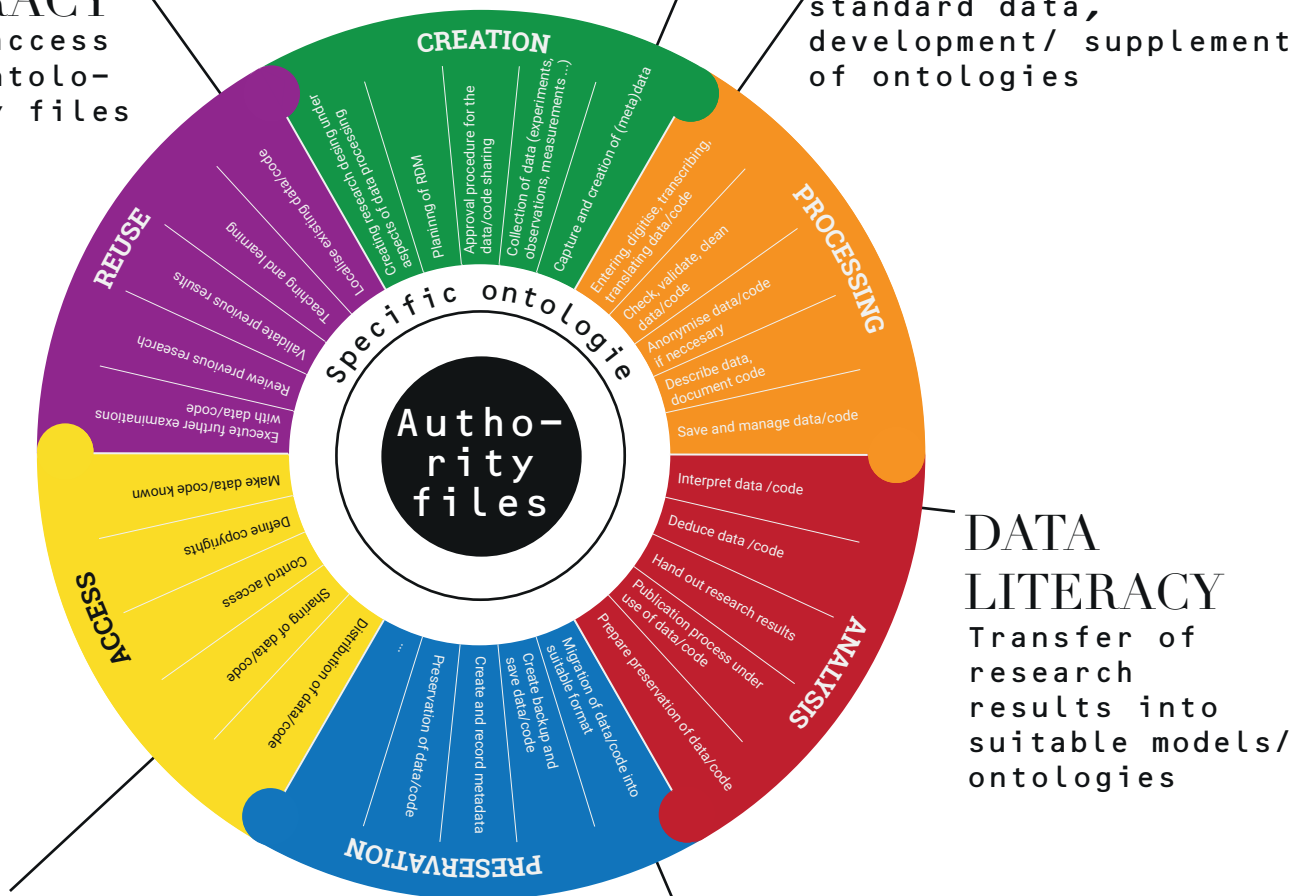

HELPDESK DATA LITERACY

Identification and use of appropriate database

Creation/use of standard data, development/ supplement of ontologies

User Story 21

As a media scientist, I would like to use standard files and ontologies to ensure the compatibility of my research / As a musicologist, I would like to keep my research data reusable via standardized metadata.

PUBLICATION

Making data in the database searchable and accessible via metadata, communicating and discussing ontologies

DATA LITERACY LTP

Making data reusable

DATA LITERACY

Transfer of research results into suitable models/ ontologies
